

## TEXAS POSSE WOULD NOT BE THWARTED.

Cremate a Prisoner Whom the Militia Were Ordered Out to Save.

## CHASE HAD LASTED FIVE DAYS.

Abe Wildner, Negro, Meets a Terrible Fate for Alleged Murder and Criminal Assault.

### REPUBLIC SPECIAL.

Admire, I. T. Aug. 20.—Abe Wildner, the negro who has been hunted and hounded over North Texas since Friday last, was captured in the Indian Territory on Red River, thirty miles southwest from here, this afternoon.

Five hundred men were in pursuit. He was overtaken in a corn field and made no resistance. Hundreds of people started, accompanying him back to Texas, to the scene of his alleged crime, where a terrible fate awaited him.

When word reached the posse that a military company had been sent to intercept the negro was then taken into the pasture of Bill Nelson, near Red Branch, fourteen miles from Whitesboro, and burned to death.

Wildner, it is charged, assaulted and murdered a young married white lady, Mrs. Caldwell, last Friday, near Whitesboro, Tex. The hunt has been persistent night and day since.

### WHITESBORO NOT DISAPPOINTED.

Whitesboro, Tex., Aug. 20.—This town is filled with an angry, excited mob, who had made preparations to burn the negro here, and it is now that the mob has been put to death fell like a bomb in the crowd of the death-fell citizens. The crowd has not dispersed, and a courier from the scene of the burning is expected at any moment.

### WOMAN AS STRIKE BREAKER.

Wife of Mill Superintendent Chaperons Nonunion Men.

Pittsburg, Aug. 20.—Following the rapid strides of yesterday on either side of the great steel strike, there was a full-to-day neither side took decisive action. The contest appears to be settling down into a determined struggle, in which neither side will acknowledge defeat while there is hope left. Joseph H. Hines, the Ohio arbitrator, appeared here today, but both sides promptly repudiated the suggestion that another move for peace was being considered.

The steel managers succeeded in starting the last mill at the Clark plant, and are evidently planning a series of extensions at every point where there is a chance of success. They will probably start the Star mill in this city and increase the force at the Lindsay and McCutcheon mills.

An interesting feature of the fight at the Clark mill is the conduct of the strikers. The superintendent is escorting the strike breakers to work from the mill. She has been seen to go to the mill with the men, and the pickets say they would rather face a regiment of soldiers than do anything improper in her presence. They say that in peace times she nursed their families, and that they cannot interfere with her or the men she escorts.

### LOOKING FOR A SETTLEMENT.

President Gompers of the Federation on an Important Mission.

Washington, Aug. 20.—News of importance is expected from President Gompers at the headquarters of the American Federation of Labor in this city. It is widely believed by the officials here that their chief has met with some success in his efforts looking for an early settlement of the steel workers' strike.

The settlement of the strike on terms advantageous to the workers has been the sole purpose of Mr. Gompers' negotiations. He has promised them all the support and assistance in the power of the Federation, and it is pointed out at headquarters that his statement made at Pittsburgh last week carries to one familiar with the workings of labor unionism an amplitude of suggestion and a definiteness of purpose which are not seen by the lay eye, and have been almost wholly overlooked in the published comment on that document.

Though his young son lay in an almost dying condition as the result of injuries sustained in a fall several weeks ago, some opportunity of value evidently presented itself for his services looking toward the settlement of the steel workers' strike, for he left his son, who has since been brought to Washington, and went to Buffalo on his mission.

President Shaffer has no desire for a sympathetic general strike of the American Federation of Labor, it is said here, as he desires the Amalgamated Association to win by its own strength if possible. He does not expect financial aid, because it is not as yet needed, and to call for it would be an admission of weakness.

### MISSOURI APPLES IN DEMAND.

East Expects to Draw Largely on Missouri for Supply.

Philadelphia, Aug. 20.—Apples have become threateningly scarce, and the whole East looks to Missouri and the West for relief. Prices are rising steadily, and there is every indication that they will go higher. It is generally understood that, while no State in the Union has more to boast of the apples in Missouri and Kansas are fairly good.

There is a rumor that several Philadelphia, New York and Baltimore firms are exerting every effort to corner the market. Tantalizing offers, it is said, have been made to some of the Maryland growers for the products of the orchards, but these growers are inclined to hold out for bigger money.

### MET WITH SHOCKING INJURY.

Elmer Hotsell's Body Pierced by Pitchfork Handle.

Carthage, Ill., Aug. 20.—Elmer Hotsell of Tipton, Mo., fell from a grain stack Monday onto the handle of a pitchfork, which was stuck into the ground. The handle pierced the bowels, and came out at the collar bone. He died in three hours.

### MISSOURI CROP CONDITIONS.

State Weather Bureau Issues Regular Weekly Report.

Columbia, Mo., Aug. 20.—A. E. Hackett of the Weather Bureau gave out the following report today:

The week just closed averaged slightly warmer than usual, with a high percentage of sunshine in the western portion of the State and somewhat less than the normal amount in portions of the eastern sections. Scattered showers have occurred in all sections, but the rainfall has been light, except over a few of the southern eastern counties, where good rains fell on the 18th and 19th, and in a few localities in other sections, where the total for the week ranged from 1 to 1.5 inches.

Little corn continues to improve in portions of the central and western sections, and in a few of the southern sections, but over the larger part of those sections it is very much at a standstill, while in many of the eastern counties, where good rains fell on the 18th and 19th, and in a few localities in other sections, where the total for the week ranged from 1 to 1.5 inches.

### TO CLEANSE THE SYSTEM.

Effectively, yet gently, when constive or bilious, to permanently overcome habitual constipation, to awaken the kidneys and liver to a healthy activity, without irritating or overloading the system.

Acids, colds or fevers, the Syrup of Figs, made by the California Fig Syrup Co.

### Marion County Institute.

Palmyra, Mo., Aug. 20.—The teachers' institute for Marion County is in session in this city. The enrollment of the ladies and the history of institutes in this county.

Professor J. P. Foreman of Hannibal is the conductor, and Professors M. V. Baugh and T. B. Baugh are assistants. The institute will continue in session until August 28. Commencement exercises will be held on August 28. The principal speaker will be Dr. J. Lloyd of this city.

To Cure Headache in 10 Minutes. Take Parker's Headache Powder. They are safe and sure. All druggists. Price 25c.

Ask Him

Ask your doctor what he thinks of Ayer's Sarsaparilla. He knows all about this grand old family medicine, this splendid tonic. Follow his advice and you will be satisfied.
